

5 FAM 760 CLASSIFICATION OF WEB BASED DOCUMENTS

*(CT:IM-67; 09-16-2005)
(Office of Origin: IRM/BPC/RG)*

5 FAM 761 TYPES OF NETWORKS

(TL:IM-33; 02-27-2002)

There are three types of networks:

- (1) OpenNet is an unclassified (SBU) intranet with an e-mail portal to the Internet;
- (2) OpenNet Plus is an unclassified (SBU) intranet with an e-mail portal and limited access to the Internet; and
- (3) ClassNet is a classified intranet which is not connected to the Internet, but is connected to SIPRNet and POEMS. ClassNet may process unclassified information, classified information up to and including SECRET, and information that has distribution restrictions. However, no Sensitive Compartmented Information (SCI) will be processed on ClassNet.

5 FAM 762 CLASSIFICATION MARKING

(CT:IM-67; 09-16-2005)

The requirements of E.O. 12958 concerning classified information apply, regardless of physical format, to all document types including web pages and e-mails. Refer to the definition of "information" in E.O. 12958 Part I, Section 1.1b. Refer to 12 FAM 500, Information Security, for details on determining classification and classification markings.

5 FAH-8 H-450 contains sample codes that can be used to ensure classified Web pages are properly marked for both display and printing.

5 FAM 763 THROUGH 769 UNASSIGNED

(TL:IM-33; 02-27-2002)
